DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 9 - 14, drawn to a method of producing a treatment outcome sample on a textile specimen.

Group II, claim(s) 15 - 17, drawn to a textile specimen.

2. The special technical feature of Group II is a web having a plastic film leader and trailer, as recited in claims 15 - 17. The forgoing special technical feature is shown in JP 1985-060239 (Abstract). Therefore, there is no contribution made over the prior art. Hence, there is no unity of invention and lack of unity is held by the Examiner.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
